REGION

Ghent - Kortrijk - Aalst - Antwerp - Remote

PROFILE

Hello,

My name is Lucas, a developer at TRplus with a preference in back end development, but with ambition to become a full stack developer. I studied Applied Computer Science which I finished with the exception of my thesis.

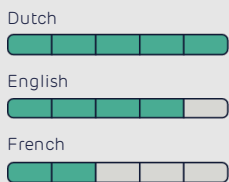

I like to be challenged and I am always trying to become a better version of myself, in my career as well as in my personal life. If I'm not programming I'm usually found analysing things or networking with people.

Profile: Full Stack

PERSONAL SKILLS

- ✓ ATTENTION TO DETAIL
- ✓ CRITICAL MINDSET
- ✓ HELPFUL

02.2021 - 05.2021

Full Stack Developer
Clovis

Elmos: Internship

10.2020 - 12.2020

Full Stack Developer
Damiaan Project
School Project

Elmos: Internship

Full Stack Developer
Clovis

Description:

I worked in a small team with analysts and other interns. Clovis is Web application where employees and employer can evaluate themselves and other employees.

Tasks:

- Making an angular web application which used a .NET Core REST Api
- Do meetings with the client, review requirements, user stories, ERD and UML
- Testing and code reviews
- SCRUM Master

Technologies: Angular, .NET Core, C#, Visual Studio, VS Code, MS SQL Server Management Studio

School Project

Full Stack Developer
Damiaan Project

Description:

I worked in a small group of 5 other students. We worked on a Web application where you could find information about Damiaan and their events, register for their events, make events with routes and track the progress of participants who gave consent. Android application where participants could use an interactive map to follow their registered route for the event and a QR code scanner for stands along the route.

Tasks:

- Making an angular web application and kotlin android application which used a .NET Core REST API;
- Do meetings with the client and write requirements, user stories, ERD and UML;
- Testing and code reviews.

Technologies: Angular, Kotlin, .NET Core, C#, Visual Studio, VS Code, Android Studio, MS SQL Server Management Studio
