24

REGION

Brussels - Leuven - Mechelen - Aalst - On Remote

PROFILE

Hi,

My name is Arthur, a young Master graduate from the *Vrije Universiteit Brussel*, specialization Software Languages and Software Engineering. Through TRplus, I'm looking for an interesting opportunity in a professional context to prove my broad technical skills, perseverance and high learning abilities.

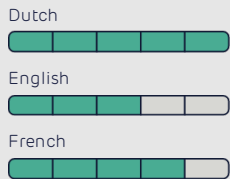

With a main focus on Python, I'm a programmer at heart who's open towards the unfamiliar. My Github page: <https://github.com/arthurChome>

Profile: Full stack

PERSONAL SKILLS

- ✓ ADAPTABILITY
- ✓ DISCIPLINED
- ✓ ORGANIZED
- ✓ PATIENT
- ✓ CREATIVE
- ✓ FLEXIBLE
- ✓ OUT-OF-THE-BOX THINKER
- ✓ PERSEVERANT

PROFESSIONAL BACKGROUND

12.2021 - 04.2022

Backend developer
.net developer

Merkator

10.2021 - 11.2021

Employee
Solutions Developer

Ipsos - Ghent

Merkator

Backend developer
.net developer

Merkator is a firm specialized in Geospatial data management. As a developer, I was responsible as a consultant on Marlin, a tool for spatial planning. One of their customers was Telenet which used their product to develop their cable networks.

Description:

- .NET developer on the UWP framework;
- Database management;
- Open-source coding on projects dealing with geospatial information.

Technologies: .net, C#, SQL, design patterns, TDD.

Ipsos - Ghent

Employee
Solutions Developer

Description:

- Managing, querying an existing database in order to process polling information.
- Worked in a team of 4 developers

Technologies: MySQL, MS SQL Server.
