PROFILE

Hi,

My name is Koen and I'm a motivated IT-professional with a versatile profile. My core competences are Test-Automation and HTML/CSS-Development but I'm also deployable as a BI-consultant (Power BI & SAS).

I have an enthusiastic personality and I'm always willing to give my best. Furthermore, I have successfully achieved my Bachelor in Applied Informatics and thereafter received the degree of SAS Certified Professional: Advanced Programming Using SAS 9.4.

## PROJECT HISTORY

---

**09.2019 - 03.2022**

TRplus consultant  
Quality Engineer  
**Elision**

---

Elision

**TRplus consultant**  
**Quality Engineer**

Description:

- Within Elision, it was my role to organize the test process in diverse projects. This was carried out based on a generic testcase set that was being applied in these projects. The testcase set was optimized multiple times and extended with new testcases when applicable. Furthermore, I've created full test-documentation and was charged with handling testing-tickets.

Technology:

- SAP, Excel, Jira, Confluence, IntelliJ IDEA

---

## PROFESSIONAL BACKGROUND

---

**02.2019 - 05.2019**

Internship  
Optimization User Experience  
**Epihunter**

---

Epihunter

**Internship**  
**Optimization User Experience**

Description:

- When I started at Epihunter, it was my responsibility to generate qualitative user data. When this data was obtained, it was my job to do the research into how user experience could be optimized.

**06.2018 - 07.2018**

Test Research  
Optimization Test Process (TMMI Framework)  
**Elision**

---

Elision

**Test Research**  
**Optimization Test Process (TMMI Framework)**

Description:

- I performed research into improving the testing process based on the TMMI Framework. Generating information on how the actual test process was being carried out and evaluating where optimizations could be done.
